X-CELL AG, a leading full service e-learning provider, supports companies and organizations of all kinds in seamlessly integrating e-learning measures into existing IT, HR and marketing processes.

Depending on the customer requirements, our products and services include the provision of a license for the highly intuitive e-learning all-in-one solution AcademyMaker, hosting, trainings, software customization, support as well as the implementation of full service projects among others.

X-CELL takes care of the entire content production, coordinates translations and localizations, surveys and assists target groups and develops individual web platforms and interfaces.

In addition, X-CELL offers ready-to-use training products on topics like occupational safety, data security, General Equal Treatment Law, customer orientation, health and compliance.
